WINE

For Glorietta wine is a passion and a pleasure. She loves great quality ingredients and it doesn't stop at food.

She loves winemakers who put a lot of emphasis on the vineyard, and the best winemakers know their vineyards back to front; they are more proactive than reactive and they don't need to throw in lots of pesticides and fungicides as they have already anticipated the needs of their vines. If they handle the grapes the right way, they won't need to add as much preservatives to stop the wine turning to vinegar. Because sometimes the best wines have the least intervention. This can be an extremely difficult technique to master but when done right the result is beautiful.

Glorietta celebrates both classic and natural wines and the art of wine making in general. She's brought together a list of the wines she loves; some natural, some classically made; most of them from winemakers who are more conscious about the techniques they use in the vineyard and winery.

She loves exploring different varieties and always loves nudging her guests to try something new.

To make life easier, the list is organised from lightest to heaviest, both in grape variety and in each section.
